

Homologation

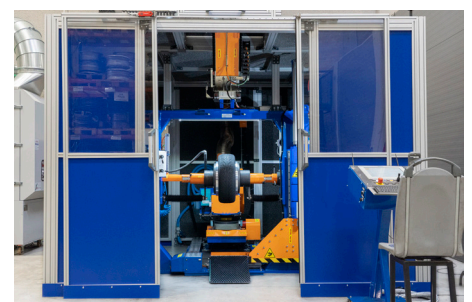

Applus IDIADA's Homologation division provides worldwide homologation services for the automotive industry (vehicle and component manufacturers).

As your homologation partner, IDIADA is able to provide the list of mandatory standards required in each market, its homologation process and the necessary test reports and certificates.

EUROPEAN UNION AND UNITED NATIONS

IDIADA is designated as a **Technical Service** for all European Union (EU) and UN Regulations by highly-reputed Approval Authorities, such as the Spanish Ministry of Industry (E/e9) and the Dutch Approval Authority-RDW (E/e4).

As a result of a strong link with the Spanish Approval Authority, IDIADA is able to provide certificates within very short delivery time. In the rule making process IDIADA participates in Geneva and Brussels working groups as technical advisor of the Spanish Ministry of Industry, which allows to be **constantly updated about any news on Regulations**.

REST OF THE WORLD

Outside the EU and the country members of the UNECE 1958 Geneva Agreement, IDIADA is also designated as a Technical Service or foreign testing laboratory for many more regions, such as: Japan (TRIAS through NTSEL), Taiwan (VSTD through VSCC), Malaysia (UN through JPJ) and Argentina (through INTI).

In the rest of the world, IDIADA has established **partnerships with the main homologation stakeholders in each region** to ensure that you obtain the required information and certificates in the most efficient way and through your IDIADA Homologation contact person. These partnerships include having agreements with GSO (Gulf countries), Nami (Russia), ICAT and ARAI (India) and CETESB and IBAMA (Brazil).

IDIADA's INTERNATIONAL NETWORK OF **HOMOLOGATION PARTNERS**

To conclude, IDIADA's Homologation division **strengths** are the following:

- More than 300 automotive homologation professionals worldwide
- An integrated network of international homologation offices all over the world
- Co-operation agreements with homologation partners worldwide
- More than 2.200 automotive professionals
- State-of-the-art comprehensive testing facilities and proving grounds

IDIADA's Homologation division looks forward to becoming your worldwide homologation partner and cooperating with you.
